Features & Traits

Dark One's Blessing (Level 1): When you reduce a hostile creature to 0 hit points, you gain temporary hit points equal to your Charisma modifier + your warlock level (Minimum of 1). *Current THP gained on kill: 4*

Feat (Custom Lineage): Fey Touched Your exposure to the feywild's magic (or in your case, a twist of the infernal pact altering your essence) has changed you.

- Increase your Charisma score by 1, to a maximum of 20.
- You learn the *Misty Step* spell and one 1st-level spell of your choice (*Hex*). You can cast each of these spells without expending a spell slot. Once you cast either of these spells in this way, you can't cast that spell in this way again until you finish a long rest. You can also cast these spells using spell slots you have of the appropriate level.

The Watcher (Story Element): Xil, the enforcer of your contract, is bound to you. At this level, he cannot fully manifest physically in the material plane, but he exists at the edge of your perception—a shadow in the corner
